SUMMARY

Dedicated and highly skilled Software Engineer with over **5+** years of experience in developing and maintaining iOS, Android, and Web applications. Committed to delivering high-quality software solutions by advocating for best practices, collaborating closely with cross-functional teams, and continuously improving code quality and performance.

PROFESSIONAL EXPERIENCE

Software Engineer | Amazon.com

October 2022 – Present

- Conducted thorough testing and debugging, identifying and resolving software defects to deliver high-quality products.
- Developed applications with React, React Native, Flutter, Electron, AWS and tested them using frameworks like Appium.
- Performed continuous integration and shipped a **5-star** application to multiple countries.
- Deployed different versions of App Configs, S3 buckets and Internationalization.
- Implemented metric algorithm to reduce crash logs by more than **2 million** monthly.

Software Engineer | Huge Inc.

October 2021 – September 2022

- Consulting for Top Companies on big name products and coordinating with several teams to give clients the best product.
- Led development for an auto finance company with up to **\$6.33 billion** net worth.
- Developed applications with Flutter, React, Unreal Engine and other frameworks.
- Contributed to code reviews and actively participated in team discussions, providing valuable insights to improve code quality and overall project performance.
- Contributed software engineering expertise in the development of products through software lifecycle, from requirements to successful deployment.

Full Stack Developer | mmHg Inc.

April. 2021 – September 2021

- Implemented complex app features, including state management, animations, and real-time data synchronization, using Flutter and related libraries.
- Working on multiple health sector projects at the same time and delivering amazing design.
- Internalization of mobile apps to make them accessible to different people in different languages.
- Optimizing old code to work with the new SDK and to deliver faster response times.

Full Stack Developer | Ommaty Technologies

Nov. 2020 - April 2021

- Contributed significantly to the development of a mobile application, showcasing expertise in Flutter and Dart.
- Creating a full backend with Node.js, Express, Firebase and MariaDB.
- Using GitHub Actions CI and Git version control to ensure code maintainability.
- Node.js, Maria DB, Next.js were used to create a neat and reusable backend REST API.
- Backend and frontend optimization to make the app production ready.

Web Developer | Vancouver Brain Injury Association

June. 2020 – September 2020

- Developed an entire WordPress website and theme from scratch using PHP, HTML, CSS, Bootstrap and other web frameworks. (www.vbia.ca)

- Completely changed the website from about 9 seconds load time to milliseconds load times with better UI and Worked extensively with customising a fast theme in the WordPress CMS.
- Wrote a detailed technical documentation on how to update the website for non-programmers.
- Applied donor-centric languages to draw more donors to the cause.

Mobile Application Developer | FIVERR

September 2020 – October 2022

- Developing a mobile application with **Flutter**, Dart and Firebase.
- Designed mobile application UI and implemented the functionality.
- Listened and implemented customers ideas into a mobile application.

OTHER PROFESSIONAL EXPERIENCE

CTO and Developer | iDDt Studios

January 2023 to Present

- Designed and developed visually appealing and responsive Shopify e-commerce websites, incorporating custom themes and layouts tailored to client requirements.
- Utilized HTML, CSS, JavaScript, and Liquid to create interactive and dynamic website features and improve the overall user interface.
- Managed website updates, maintenance, and ongoing support, including resolving technical issues, optimizing site speed, and implementing SEO best practices.
- Collaborated closely with clients and stakeholders to gather project requirements, provide technical recommendations, and ensure successful project outcomes.
